

NEW ZEALAND

## FUSIONAL

When French know-how meets New Zealand terroir, a fusion of harmony is revealed. Fusional is the selection of our estate grown young vines. It reflects all the excellence of the fusion between the terroir of our vineyard and our historical know-how, showing luscious fruit and lovely roundness.

### GRAPE VARIETY

Sauvignon Blanc - Young vines

### TERROIR

65% Greywacke  
(pebbles from a riverbed),  
35% Broadbridge  
(brown clay)

### WINEMAKING

Made from grapes from our vineyard, this wine was fermented in stainless steel tanks, which enabled charming fruity notes and wonderful aromas to develop. Then, it was aged on fine lees for about six months, in order to obtain a lovely roundness.

### TASTING

Both subtle and intense in the mouth, this wine expresses a pleasant freshness, allied to delicate notes of ripe fruit such as apricot or pineapple.
